Format : Free Sticker // Free Digital Download

Sick Room Records and **Africantape** have combined forces once again to present their 2012 international free music sampler. The 19 exclusive tracks featured here represent some of the finest and most innovative new music on both sides of the Atlantic Ocean, and provide a fine example of both labels' current and upcoming projects.

We are very happy to bring all these great bands together and present them to the public for free.

Founded in 2008 by Julien Fernandez (Chevreuil, Passe Montagne), **Africantape** has lost no time in carving out a definitive place in music. Consistent quality, high standards, and top-shelf talent create a community of unique, yet eclectic sounding bands that are seriously taking the devil by the horns and showing the world something truly awesome.

For more than a decade, **Sick Room Records LTD** has been one of Chicago's stand-out independent labels. Originally founded with the intent to document and promote a small group of bands and friends, it quickly grew and now has a catalog of almost 70 releases and represents creative talent from all across the USA and Europe. Always adventurous, curious and humble, the label has defined its existence on the personality and integrity of its excellent artists just as much as the music.

Ryan Duncan, Sick Room Records LTD
